

Fiat Group Automobiles and Chrysler Group LLC integrate distribution activities in Europe

Fiat Group Automobiles S.p.A. and Chrysler Group LLC take an additional step towards the integration of their distribution activities in Europe.

Starting from April 2010 FGA will commence carrying out the commercial activities supporting the sale and service of Chrysler, Jeep® and Dodge branded products in several countries in Europe and will gradually replace Daimler in performing services in support of such activities.

FGA Capital has already substituted Daimler in providing financial services to Chrysler's European activities.

The activities and employees of the Chrysler national sales companies in Europe will be gradually transferred to the corresponding FGA national sales companies.
